Ad hoc networks: Denial-of-service resistant quality-of-service signaling for mobile ad

hoc networks

Marek Hejmo, Brian L. Mark, Charikleia Zouridaki, Roshan K. Thomas October 2004 Proceedings of the 2nd ACM workshop on Security of ad hoc and sensor networks

Publisher: ACM Press

Full text available: pdf(252.25 KB) Additional Information: full citation, abstract, references, index terms

A class of Denial-of-service (DoS) attacks on quality-of-service (QoS) based signaling protocols for mobile ad hoc networks (MANETs) can severely cripple network performance with relatively little effort expended by the attacker. We propose a new distributed QoS signaling scheme that is resilient to this class of attacks. The key elements of the scheme are: sensing of available bandwidth, traffic policing, and rate monitoring. The proposed scheme provides QoS differentiation for best effort a ...

+thermtrip +author:miller +author:k

Nothing Found

Your search for +thermtrip +author:miller +author:k did not return any results.

You may want to try an Advanced Search for additional options.

Please review the Quick Tips below or for more information see the Search Tips.

Quick Tips

• Enter your search terms in <u>lower case</u> with a space between the terms.

sales offices

You can also enter a full question or concept in plain language.

Where are the sales offices?

 Capitalize proper nouns to search for specific people, places, or products.

John Colter, Netscape Navigator

Enclose a phrase in double quotes to search for that exact phrase.

"museum of natural history" "museum of modern art"

 Narrow your searches by using a + if a search term <u>must appear</u> on a page.

museum +art

Exclude pages by using a - if a search term <u>must not appear</u> on a page.

museum -Paris

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.

museum +"natural history" dinosaur -Chicago
